

RingCentral Call Pop Up Search in QQ

URL to Install:

https://app.qqcatalyst.com/Contacts/Search#adv=false&agen=-1&all=false&cats=_&contact=%P&contt=_&lob=-1&pa=-1&pef=&pet=&pexf=&pext=&pg=1&policy=&sc=&sd=&type=Contact

Settings

General Incoming Outgoing

Display incoming call in the standalone window

Pause iTunes

Launch an external app or a URL on incoming call

Important note: Launching an external application may hinder the performance of RingCentral Phone

Execute command:

y=&sc=&sd=&type=Contact

HELP: These parameters can be used as command line arguments

- %N - Full Name
- %F - First name
- %L - Last name
- %D - Called number
- %P - Formatted phone number: (650) 555-4092
- %C - Full canonical format: +1 (650) 555-4092
- %E - E164 phone number: +16505554092
- %% - % symbol

Example:

* <http://www.mysite.com/myintegration.htm?number=%P> - this example launches a browser, opens a webpage and passes it the caller's number
